

STATE ODDS AND ENDS.

TRAGEDY AT A DANCE.

The Heartless Murderer Smoked a Cigarette Near the Corpse After Committing the Crime.

London, Ky., March 5.—One of the foulest and most cold-blooded murders ever perpetrated in this section was committed near East Bernstadt, a mining town in this county, at the Smallwood mine, a disreputable joint on the line of the L. & N. railway. Millard Hughes, a young man from White's Station, Madison county, while at the Smallwood resort attending a dance, was set upon by Leonard Smallwood, Hamp Gragg and others, and while begging for his life had the whole top of his head shot off.

While Hughes, who had been shot twice in the head with a 44-caliber Colt's revolver, was lying on the floor still gasping for breath, his murderer, Leonard Smallwood, took a seat by the fire and calmly lit a cigarette and smoked it within two feet of the murdered man's body. The corpse lay there all night, and was not removed until after the coroner's jury had viewed the body.

ONE DEAD, ONE DYING.

Terrible Results of a Little Boy Spilling Powder on an Open Hearth Near Grayson, Ky.

Grayson, Ky., March 5.—While Grant Mullins and Marion Dowdie were starting to work in the coal mines a 3-year-old boy picked up half a gallon can of mining powder and ran toward the fire, and as Mullins attempted to catch him the child dropped the can on the open hearth, spilling part of it.

The powder exploded with terrific force, setting fire to the clothing of Mrs. Mullins, her three children and Dowdie and Mullins. Mrs. Mullins, a sheet of flames, ran to a pool of water near by. Mullins and Dowdie tore the clothes from the children and then from themselves. Mrs. Mullins has since died, and her husband is dying. The others may recover.

PLEADED GUILTY.

A Louisville Hardware Dealer Fined \$1,500 for Falsely Billing a Car Load of Freight.

Louisville, Ky., March 3.—The federal grand jury returned an indictment against John W. Price, secretary of W. B. Belknap & Co., hardware dealers, one of the largest wholesale houses of this city. The indictment alleges that Price on October 10, 1898, billed to the E. L. Wilson Hardware Co., of Beaumont, Tex., a car load of mixed hardware, guns, ammunition, etc., labeling and billing said shipment as "wagon material in the rough," the rate on which is lower than the rate on mixed hardware.

The indictment, it is said, is the result of rivalry between St. Louis and Louisville wholesalers in the Texas market. Later in the day Mr. Price pleaded guilty, and Judge Evans fined him \$1,500.

Charge Made by Creditors.

Louisville, Ky., March 3.—An amended petition filed in the federal court makes some serious charges in connection with the bankruptcy proceedings instituted against L. B. Nugent, a Fourth avenue dry goods merchant. Nugent's creditors allege that Will Nugent, son of E. B. Nugent, has left the city with money realized on his father's house and the stock of his store, and that he can not be located. The amount young Nugent is said to have taken is about \$14,800. It sets forth that Nugent now has assets of about \$7,000 only, while his liabilities are \$40,000.

Quarrelled Over a Pair of Socks.

Middlesboro, Ky., March 5.—Will and John Stevens, brothers, fell out over the possession of a pair of socks, at the mines, when the former pulled a pistol and shot the other through the breast, inflicting a fatal wound. The men were colored. Stevens made his escape.

Used His Father's Knife.

Leitchfield, Ky., March 5.—James Sisk, son of Coroner T. M. Sisk, who has been delirious for the past two days, borrowed his father's knife and cut his throat. His parents learned the motive too late, and the son may die.

Boy's Dying Statement.

Middlesboro, Ky., March 5.—John Lewis Howard is dead, and before he expired reiterated the statement that he killed his father at the solicitation of his mother. The boy was 10 years old at the time of the alleged crime.

Bowling Alley Blaze.

Lexington, Ky., March 4.—Fire damaged Meiler's bowling alleys and saloon to the extent of about \$5,000. Insurance, \$2,500. Hanney & Co., sign painters, also suffered.

TORE DOWN THE CREPE.

Lieut. Chas. Ward Confesses He and Sergt. Geo. Pearce Did the Deed—May Be Court-Martialed.

Frankfort, Ky., March 4.—Lieut. Charles Ward, of Company C, Lexington, and Sergt. George Pearce, of the same company, who is also sergeant major of the 2d regiment, tore the crepe from the marble columns of the capitol. Pearce confessed to Lieut. Col. Morrow and implicated Ward. The latter is now at home, having in the meantime been relieved from duty to return to business. The act is thought to have been the result of a thoughtless romp.

Lieut. Col. Morrow will order a court-martial. He predicts that Ward and Pearce will be severely punished. The charge against Ward will be conducted unbecomingly an officer. There is talk of prosecution in the local courts, but Morrow said: "I shall not surrender these men to the civil authorities. They can be punished, but once for this offense, and that will be by court-martial."

KENTUCKY WILL LEAD.

Republicans From the Southern States Will Meet in Nashville to Consider an Election Law.

Frankfort, Ky., March 4.—The committee appointed by the republican legislative caucus to arrange for a convention of the republicans of Kentucky, Virginia, Missouri, Mississippi, Alabama, North and South Carolina, to inaugurate a movement against the election laws now in force in those states, held a meeting and organized. Senator N. T. Howard, of Butler county, was elected chairman, and Senator W. H. Cox, of Maysville, secretary.

The Kentucky state convention will be held some time between now and April at Louisville. The convention then will issue an address to the republicans of the states mentioned, calling a convention of all of them to meet at Nashville, Tenn., later.

Was With Morgan.

Glasgow, Ky., March 5.—Harmon H. Barlow, one of the wealthiest men in Barren county, is dead. He was captured on Morgan's raid into Ohio and was sent to Camp Douglass. With others he engaged in a daring conspiracy to escape, but their plans were discovered and thwarted. Mr. Barlow was the oldest son of the late Hon. Smith Barlow, a noted Kentucky politician.

Miners Were Wrong.

Owensboro, Ky., March 2.—Coal miners at the New Holland mines went back to work after a strike of three weeks. While out the men organized and joined the union. As soon as they organized higher union officials told the strikers they were wrong in their demands. The mine owners signed the union scale. The owners claimed the right to assign men to places in the mines.

Another Charged With the Crime.

Somerset, Ky., March 5.—Milford Bartlett, who was arrested several weeks ago, accused of burning and killing his wife in an old abandoned cabin, was given his examining trial before County Judge Catron and acquitted. A Negro named Bowen Claunch was arrested immediately after the Bartlett trial, charged with the murder of Mrs. Bartlett.

Fine Fields Promised.

Louisville, Ky., March 2.—From final payments which are being made on entries for the Kentucky Derby of 1900, valued at \$6,000, the Clark stakes, \$4,000, and the Kentucky Oaks, \$3,000, Secretary Price, of the new Louisville Jockey club, feels assured of unusually fine fields for those events. The limit for these payments expires on March 1.

Suicided While on a Visit.

Falmouth, Ky., March 5.—Alvin Hart, a prominent young farmer of near Demossville, while on a visit to his father near Concord, suicided by shooting himself. He leaves a wife and three small children. The latter have been ill with diphtheria, and the worry incident thereto is assigned as the cause for the rash act.

Wife and Child Mysteriously Dead.

Columbia, Ky., March 2.—The wife and 2-year-old child of Peter Cooper died within a few minutes of each other and rather mysteriously. He left after breakfast to work about one mile away. At about 9 o'clock he was sent for, and on reaching home found them both dead. The case may be investigated.

Reward for Goebel's Assassin.

Frankfort, Ky., March 2.—In the house the Ward bill, appropriating \$100,000 for ferreting out the assassin of William Goebel, was discussed for nearly five hours and finally passed by a vote of 57 to 37—a strict party vote.

RETURNING THE ARMS

Their Shipment From Frankfort to London Has Been Stopped.

The Removal of the Arsenal Equipment Was the Subject of a Red-Hot Resolution Being Introduced in the Senate.

London, Ky., March 4.—Two full carloads of army equipment, including small arms, two Gatling guns, five cannons and large quantity of ammunition of all kinds, arrived here over the L. & N. from Frankfort, addressed to Col. Roger Williams, Capt. Parker, of the London company of state guards, is in charge of the war implements, and has a strong guard over them. The meaning of this move is not generally understood here.

Frankfort, Ky., March 6.—Shipment of the guns and ammunition of war to London continued Monday. Car-load of small arms and other equipments was shipped Monday morning. The Gatling gun and other arms in use by the soldiers on the state house square are of course still here. Republican Gov. Taylor left for Butler county Monday morning to attend the funeral of his brother, Alonzo Taylor.

Frankfort, Ky., March 6.—In the democratic senate Monday Senator Bell introduced a bill which is aimed at Republican Gov. Taylor and republican minor state officials. The bill provides that any state officer who shall forcibly hold possession of the office for a larger period than five days after the legislature or state contest board shall have declared another person legally elected, shall be guilty of felony.

There was more war talk in the democratic senate Monday. Senator Triplett, anti-Goebel democrat, offered a resolution to investigate the truth of published reports concerning shipment of state guns and military paraphernalia to London by Republican Gov. Taylor, and to demand the return of same to the state arsenal. If the reports are found to be true and return of them is refused, the committee appointed to make the investigation shall then bring in a bill making an appropriation of \$250,000 to buy new guns and also authorizing Gen. John B. Castleman to issue a call for a sufficient number of volunteers to take the guns from those now in possession of them and return them to the arsenal. A storm of applause followed the reading of the resolution, which lies over one day.

Frankfort, Ky., March 6.—The orders for shipment of guns and ammunition from the state arsenal to London, Ky., by the republican state authorities was revoked, and a car loaded with munitions of war consigned to London was unloaded and its contents returned to the arsenal here. The officials give no reason for the change of programme. The soldiers, acting under orders, worked all forenoon loading the car. There is a report that the war department at Washington interfered and has ordered the guns and ammunition already taken to London to be returned here.

This promises to be the liveliest week in Frankfort since the stormy period which immediately followed Goebel's shooting. Before the end of the week startling arrests will probably be made in the attempt to show a conspiracy in the assassination. The three men who chartered the special train that brought the mountaineers to Frankfort are known, and it is hinted that they may be arrested.

Taylor gives no explanation for shipping arms to London further than saying that as the soldiers are gone the munitions are no longer needed in Frankfort.

The friends of the McChord railroad anti-extortion bill will make a fight in the house to take the bill out of the orders of the day. Those leading the opposition to the measure claim that every republican member will vote against the bill or assist in breaking a quorum, and that the defeat of the bill is assured. A number of democrats are out of line with their party on that bill, notwithstanding it was endorsed by the democratic state platform.

"Planet Mercury" Probably Lost.

Halifax, N. S., March 6.—A Frenchman at West Publico, near Yarmouth, reports that he picked up a life preserver on the shore with the name "Planet Mercury" on it. The steamer Wanda on Saturday picked up a life raft and a sailor's chest. Several life preservers and a steamer's hatch were picked up by South Shore fishermen. The name on the preserver found would seem to settle the identity of the wrecked steamer.

The Association Is Dead.

Pittsburgh, Pa., March 6.—The Independent Window Glass Manufacturers' association, formed last December by a number of the independent manufacturers, has proved a failure, and notices have been sent out announcing that the association is dead.

FIFTY-SIXTH CONGRESS.

First Session.

Washington, Feb. 28.—Senate.—Notwithstanding the agreement made by the senate to vote on the Hawaiian government bill the final vote on the measure was postponed until 4 o'clock Thursday. Practically no progress was made on the bill although it was under consideration nearly four hours. Mr. Aldrich, chairman of the finance committee, at the opening of the session, made an explanation of the work of the conference on the financial measure, his statement resulting in an unexpected and spirited debate.

House.—The battle royal over the Porto Rican tariff bill ended in the house in a sweeping victory for the republicans. The bill amended and agreed upon at the conference of the republicans on Monday night so as to reduce the tariff from 15 to 10 per cent. of the American tariff and limiting its life to two years, was passed by a vote of 172 yeas to 161 nays.

Washington, March 1.—Senate.—The bill providing a form of government for the territory of Hawaii was passed without division. Mr. Clay delivered a carefully prepared speech on the Philippines. He favored the adoption of the Bacon resolutions declaring it to be the policy of the United States to turn over the islands to the Filipinos as soon as a stable government could be established by them under the protection of this country. The Porto Rican tariff bill was made the unfinished business, and will be considered as soon as the conference report on the finance bill shall have been disposed of next Tuesday.

House.—The democrats scored their first victory of the session on the motion to take up the contested election case of Aldrich vs. Robbins from the Fourth Alabama district. On two separate votes the democrats, with the aid of two republicans—Mr. Mondell, of Wyoming, and H. C. Smith, of Chicago—best the republicans upon the question of consideration. An agreement was made to consider the Louisiana bill relating to securing mail matter March 20. A bill passed to grant an American register to the ship Windward, in which Lieut. Perry will make an attempt to reach the north pole.

Washington, March 2.—Senate.—Interest in the Porto Rican tariff measure now has been transferred from the house to the senate. Consideration of the bill embodying substantially the provisions of the house bill, and in addition, providing for the temporary form of civil government for the island of Porto Rico, was begun, several speeches being made. An hour and a half of the session was devoted to consideration of the Quay case, Mr. Hoar (Mass.) presenting an able constitutional argument in favor of securing Mr. Quay on the ground, mainly, that it was the intention of the framers of the constitution that the senate at all times should have its full quota of members.

House.—Within two hours of a special message from the president recommending the immediate passage of a bill to place in his hands all the moneys collected upon Porto Rican goods since the Spanish evacuation of the island to be used for the relief of the Porto Ricans, had been read to the house, the house had passed and sent to the senate a bill to carry out the recommendation. The bill was passed by a vote of 162 to 107, 13 democrats, two republicans and 47 republicans voting with the republicans in the affirmative. Subsequently the Aldrich-Robbins contested election case from the Fourth Alabama district, which the house twice refused to consider, was taken up, 136 to 129, and was debated for the remainder of the day.

Washington, March 3.—Senate.—Without dissent, a resolution was adopted calling on the secretary of war for the court-martial proceedings held during the war against Adj. Gen. Corbin. The Quay resolution was taken up and Mr. Ross, of Vermont, argued against the senate's action. Mr. Teller, of Colorado, delivered a lengthy speech on the conference report on the financial bill. The senate adjourned early on account of the death of Representative Eyles, of Virginia.

House.—A joint resolution was passed for the government acquisition of a certain reservation of great trees in California. Mr. Hay, of Virginia, then announced the death of Representative Eyles, of Virginia, which occurred Friday night. A committee of 13 members was appointed by the speaker to act with a senate committee as a funeral escort. As further mark of respect to the deceased, the house then adjourned until Monday.

Washington, March 5.—Senate.—Mr. Carter, of Montana, dealt vigorously with the Quay case in the senate in the course of an explanation as to why he will vote for the former senator from Pennsylvania, notwithstanding he voted against the seating of Mr. Corbett in the last congress. The near approach to the time of voting on the conference report on the financial bill brought out the speeches on that measure, one by Mr. Fairbanks, of Indiana, and the other by Mr. Butler, of North Carolina.

House.—The following bills were passed: The state of Wyoming to be added to the United States about 6,000 acres of land granted the state at the time of admission for university purposes and select other lands in lieu thereof; to issue a patent to a tract of land at El Reno, Okla. for cemetery purposes; to amend the time for completing the bridges across the East river between Long Island and New York; to prevent foreign fire insurance companies from doing business in the state; to authorize white persons who have intermarried with Cherokees, Indians to bring suits in a court of claims to authorize the secretary of the interior to negotiate with the Kiowas and Comanches for a neutral strip in Oklahoma.

VOLUMINOUS RECORD.

The President Sends to the Senate Information Relating to Our Philippine Policy.

Washington, March 6.—The president sent to the senate the correspondence called for by a resolution of Senator Hoar asking for information relative to our course in the Philippines.

It is a very voluminous record, containing much that has already been made public, and includes instructions by the president, proclamations by the Philippine commission and Gen. Otis' reports of officers in the Philippines, all communications received from Aguinaldo or his assistants or proclamations issued by them; information concerning the treatment of prisoners or other inhabitants of the island by the insurgents; and also such information as has been received as "to aid on encouragement received by Aguinaldo and his followers from persons in the United States, as to what pamphlets, speeches or other documents emanating in the United States and adverse to its authority were circulated in whole or in part among the Filipinos in arms against the United States, among other inhabitants of the island, or among the soldiers of the United States."

"TELL MY FRIENDS TO BE BRAVE
AND FEARLESS, AND LOYAL TO THE
GREAT COMMON PEOPLE."

The passing away of that noble spirit of Mrs. Margaret Fish from its earthly abode of cares and toils "to her home not made with hands eternal in the heavens," impresses upon us the grave fact that the old landmarks are rapidly going thither. She belonged to the aborigines of Rockcastle. To the first settlers who blazed their way by Walker's Cabin on the Cumberland and settled among our hills and dales. She belonged to that class of strong, energetic, business-like women who recognized the vast difference between the empire masculine and the empire feminine, yet possessed to a marked degree the attributes of both. She could milk a cow as well as turn a "hoe-cake," feed the stock from the well filled barn as well as she could make up a bed or sweep the house. A gardener always; a farmer in fact and in truth. With a full appreciation of economy and with a saving inclination and disposition, she was a helpmate indeed. Several times a week's butter and eggs were sent to the stores and with them she always kept her credit side the larger. She sold with business-like accuracy the products of the farm and knew the durability and adaptability of every field of their large and rich farm. Never was there a better or a more obedient family of children reared, than were brought up by these good parents who were always watchful and mindful of their best interest. Ten years ago went "Grandma" Haley. Before and since, the dying embers of life's fire has gone out and the saintly souls of Aunt Lucy Adams, Mrs. Chesnut, Aunt Betsey Cook, Mrs. Armp Gadd, Mrs. Caleb Guinn, Aunt Martha Albright, Aunt Polly Hiatt, Aunt Millie McClure have winged their way through the Pearly Gates of Paradise into the City of eternal rest and peace. Few of their like and of that old school remain. Mrs. Elizabeth Whitehead, Mrs. James Houk, Mrs. Mary Conn and Mrs. Ashley Owens yet survive. They have lived to witness many a change for the better in this old county now 80 years old. They have seen generations come and go. They have seen Mt. Vernon, Brodhead and Livingston build up. They have seen the dense forest converted by the layman's ax into beautified farms. Brier patches and sassafras fields have given away to clover land and meadow. The wild cats have made music at their door while panther bravely tramped the picket line near by. But thank God no more the hideous and threatening howl of wild and ferocious animals bring terror to their hearts for they have gone and in their place we find the more docile animals, the peacock, pigeon and dove. All this they have seen and even much more. While these remaining few have traveled life's rugged highway to ripe old age that venerable age hath brought its rich fruition. We say with reverence and profound admiration, God bless this noble class, both living and dead! We are thankful for their lives; for their holy example; their righteous living; for their motherly advice and friendly admonition.

THE recent sad news from starving India has aroused the generous emotions of our people and in this hour of great trial financial aid is being evoked by the severe reverses

in South Africa. Church auxiliaries are raising money every where to be sent to six million starving people.

Hon. Harve Helm, the faithful and efficient county attorney of Lincoln, wants to go as a District Delegate to the National Democratic Convention which will be held in Kansas City, July 4th. Search the ranks of Democracy from Cumberland's Peak to the Ohio and you can't find a better worker or a more liberal contributor for the upbuilding of our principals than the gentleman from our neighbor city of Stanford. Tall and handsome, with a striking physique and intelligent and brainy look, he would make an ideal delegate. We rise to second his nomination, tender him our best services, yea, if need be, grease our tongue, pull off our collar and cravat, roll up our sleeves, hoist up our pantaloons and go to work for his election.

To the gimlet headed editor of The Williamsburg Times we desire to say that men who live in glass houses ought not to throw stones. From the looks of the Times, which so clearly shows the absence of brains, proves that he is not much pumpkins himself. We would advise the editor, Burlesque to have either Drs. Moss, Watkins or Adkins to perform a surgical operation on his head and put an idea in it. No wonder the editorial column of that weak and without news-paper is filled with patent medicine advertisement. The next thing, the paper had better advertise for an editor. Just look at the writing for it, and any one will know the rest. When Green Denham and later, Walker Mason Printed the paper, it was not only decent but newswy. However, when it got out of their hands it was like unto a certain man that went down to Jericho. The looks of the weak and slimy thing shows plainly that its last dollar is already gone. John Siler or Charley Keeton might loan him a little on a good bankable note, if he could get Jim Elliston or Dr. Gadliff to sign it with him. But we would pity them because we know what it is to pay security debts. These good men might loan him a little money, but not brains, which above all things, he needs just now.

The remains of the young man Hughes killed by Smallwood at Pittsburg last Saturday night was brought through here Monday and taken to Whites Station for burial. It appears that he was but a boy and was at that place working for his uncle, by chance he had gone to a party at the house of Smallwood and while they were engaged in dancing Smallwood came in wild with intoxication and ordered young Hughes out of house, Hughes begged for his life, said he would go at once but before he could get out he was struck over the head with a revolver and then shot and instantly killed. If there was any cause for the horrible deed it remains yet a secret. It will be remembered that Smallwood killed his own brother four years ago and was imprisoned for a term of three years, rumors are deathly dark on his part.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of a doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to call at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. PESTS OF THE POULTRY YARD MUST GO!

American Lice Destroyer Kills More Mites, Lice and Other Vermin in a Day Than All Other Remedies Combined.

The war is on! The days of lice and vermin that have done so much to make the life of the poultryman miserable, and his business unprofitable are over. American Lice Destroyer is the proper ammunition to use! This preparation is wonderful in its power, and vermin cannot exist twenty-four hours after it is applied to the coop or fowls. Every poultryman needs it. It is cheap, reliable and effective, one package being sufficient to protect 250 fowls from mites and lice for one year. When this Destroyer is used, profits at once increase. Lice and vermin do more to kill profits than all other causes combined. You know it. The Time Comes

to every elderly woman when an important functional change takes place. This is called "The Change of Life." The entire system undergoes a change. Dreadful diseases such as cancer and consumption are often contracted at this time.

McELREE'S

Wine of Cardui

strengthens and purifies the entire system, and brings the sufferer safely over these pitfalls. Its effects have been wonderful. It is good for all menstrual troubles, but is especially recommended at this time. Ask your druggist for the famous Wine of Cardui. \$1.00 a bottle.

For advice in cases requiring special directions, address the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOMAS J. COOPER, Tupelo, Miss., says: "My sister suffered from irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her, and also helped my mother through the Change of Life."

The McCord R. R. bill passed the house Wednesday by a vote of 56 to 42.

The China School Book Bill passed Senate Wednesday, will go to House in a day or so, there is no doubt but that it will become a law.

Milford Bartlett, was arrested several weeks ago, accused of killing and burning his wife in an old abandoned cabin was given his examining trial before County Judge Catron, at Somerset, on Saturday last and acquitted. Bowen Claunch a negro, was arrested immediately after the Bartlett trial, charged with the murder of Mrs. Bartlett.

The band boys have received their uniforms, which will beyond a doubt, be as pretty and as flashy as any of the uniforms worn by country bands. The coats and caps being made of maroon and the trousers of dark green, with dark red stripe down the side. Taking it all together, we think them to be the most striking contrast, we have even seen.

A lawyer, once in an adjoining county, asked a lady, (who was weeping), why she wanted a divorce. Her reply was: "The wretch accuses me of snoring in my sleep, of having cold feet of going through his pockets, of talking all the time, of hitting him with dishes, of scalding him, of making him sleep in the woodshed nights! It would take a saint to live with him, and I want a divorce on grounds of incompatibility of temperament."

The State Senate, by a vote of 16 to 3 passed the Johnson Bill amending the Goebel election law. The bill abolishes the party device on the ballot, requires that all ballots shall be printed on paper to be furnished by the State Librarian, requires that at least one member of each County Board of Election Commissioners shall be a Republican and provides that two election officers in each voting precinct shall be chosen from the two leading parties, from lists to be furnished by the party authorities.

The murder of young Millard Hughes, near East Bernstadt, was the gravest crime ever committed in the county. Lynching may result. The persons under arrest charged with the crime are Ed Smallwood, his son Leonard, two daughters, Lizzie and Ida, Mary Cassaday and Hamp Gragg. All refuse to talk. The evidence at the Coroner's inquest showed that Lizzie Smallwood used a double barrel shotgun in the killing. She also tried to shoot Deputy Collier when the arrest was made, and gave the officers a sharp tussle when putting handcuffs on her. The prisoners were brought here under a strong guard to prevent lynching. There is no clew as to who fatally stabbed Ed Frieze, near Pittsburg, Saturday night.

The school per capita for the State, will undoubtedly be reduced this year. At \$2.70 for each child disclosed by the census to be of school age. A cut in the per capita to \$2.40 is anticipated. Necessity for this reduction in the per capita allowance is due to the fact that the resources for last year were not sufficient to meet the \$2.70 per capita. Nevertheless the amount due under that allowance must be carried forward as a deficit and paid out of the school fund for this year. In order to pay off this deficit and pay a surplus in the school fund of the State to meet same the per capita allowance must be reduced. Former State Superintendent of Schools W. J. Davidson, on entering upon his duties, found a deficit left by his predecessor by reason of too high a per capita allowance. Superintendent Davidson reduced the per capita and strove to pay off this deficit, but the last year in office he also raised the per capita beyond what the resources of the State warranted thus leaving a deficit for his successor. The school per capita must be estimated and fixed before it is known exactly what the resources will be, so it is impossible to gauge the matter exactly. For instance, Superintendent Davidson popped up the per capita from \$2.30 to \$2.70 in a single year.

LEGISLATURE.

The following taken from a Chicago paper, is a pretty good burlesque on the present Legislature:

"The Speaker of the House of Representatives mounted the rostrum and called the meeting to order with the but end of a Smith & Wesson's great work on 'Scientific Ventilation.'"

The Speaker—Will the Coroner please read the minutes of the preceding meeting? I mean the Clerk

The Clerk—I regret to state that a gentleman from Breathitt county accidentally shot off two of my fingers as I was holding up my hand to give the barkeeper the mystic signal last night, and I have been unable to write up the minutes.

The Speaker—Well, it is immaterial. The Clerk can perhaps inform us whether there have been any vacancies on the roll since our last meeting.

The Clerk—I think not, but there are several members on the "missing" list.

The Speaker—Before taking up the business of the day, I must request the gentlemen from Rockcastle county to quit firing his gun at the skylights.

The gentlemen from Rockcastle—I was simply trying to catch the Speaker's eye. I have a bill here, Mr. Speaker, to provide a navy for the State of Kentucky.

The Speaker—Without objection the bill will be referred to the Committee on Naval Affairs. I believe that is the gentleman from Clay county who is waving Bowie knife at the chair.

The gentleman from Clay—Mr. Speaker, I wish to introduce a bill providing for the equipment of the members of the Legislature with armorplated shirts and the most modern fire arms.

The Chair—The bill of the gentleman from Clay is referred, without objection, to the Committee on Cemeteries and State defense.

The gentleman from Jefferson—Mr. Chairman, I wish to move that the Legislature make an appropriation to provide for each member of this body with a copy of the Code of Kentucky, also the Code Duello and a history of the Clay county feud.

The Chair—The gentleman's motion is referred to a Committee on Education. The Sergeant-at-Arms will please remove the gentleman from Whitley and the gentleman from Harlan from the hall so they can exercise their guns to a better advantage on the innocent bystanders.

The gentleman from Nelson—I am authorized to extend an invitation from the distillers of my county to the members of this honorable body to pay a visit to their establishments at any time suitable to their convenience.

The Speaker—The invitation is accepted and motion carried. The Legislature stands adjourned to meet in Nelson county at early sunrise to-morrow. That portion of this honorable body reaching the locality before the hour mentioned, will be furnished proper irrigation by our friends on the grounds.

On last Saturday Milton Renner was acquitted on charge of shooting along public highway. James Townsel was held over to answer before the grand jury in 3 cases for selling whiskey. Wm. Bradley, Logan Arnold and Geo. Vance fined \$50 each and cost for furnishing liquor to minors. Pate McClure was tried same day for selling liquor unlawfully in two cases and held over but executed appearance bond and was released on Monday. Bogue Laswell was fined 1 cent and cost and Wallace Clark \$15 and for each of peace committed on Wm. Chasteen. Elzie Langford went to jail to satisfy a fine of \$15.

Mat McKenney \$5.00 for breach of the peace and John Debord \$1 for being drunk.

Harlan Whitaker had his examining trial Tuesday for shooting Gov Goebel and was held without bail.
